

710 CLONE CLASS PURE STOCK

Engines in this class must run parts unaltered from factory specifications.

710.1 PIPE:

Must run with 0.750" pipe, 10" to 15" long.

710.2 MUFFLER:

Must run RLV Mini 91 muffler. (See Section 710.14 for additional muffler specifications.). Muffler must be screwed, not welded, on to the end of the pipe.

710.3 CLUTCH:

Must be a shoe type clutch. Drum may be stamped or billet steel. No cooling fins either machined into drum or added on. No disc clutches will be allowed.
